Dear Sir,

I dispatched to you last week a specimen set of the coins of George, a gift from Mr. T. S. Saltus, trust they will reach you safely.

I came across today a parcel of medals, which should have been posted to you in August last, ^{with the order of the Bank} as a gift from Mr. Saltus, I thought my son had posted these but in the holiday rush, I suppose they were overlooked, I send them today.

Yours faithfully

Mr Charles Poyer,
Dear Sir,

With reference to the

understood Mr. E. T. Newell to
say that he would pay my
dues each year \$5 rate and
not \$15.

I am,

Yours faithfully,

April 2nd, 1913.

Mr. A. H. Baldwin,
4A, Duncannon Street,
Charing Cross,
London, W. C., England.

My dear Sir:-

Your letter of March 18th addressed to Mr. Charles Fryer has been referred to me. This is the first request that we have received from you to be transferred to the associate membership roll, of which the ~~pay~~ ~~in~~ dues are five dollars a year, and that can be done for the current year. As regards the year 1912, having carried you on the books of the Society during that year as a full member, fifteen dollars, and not having received any request for a change of membership until after the close of the year, I have not under the By-Laws of the Society, any authority to make any change that would affect that year, and I am therefore enclosing a bill for dues as member for the year 1912 and as associate member for the year 1913, and trust that this will be satisfactory to you.

Mr. Newell is at present in Europe. I expect, however, that he will return sometime in May. He told me last month that you had asked him to pay your dues at the rate of five dollars, and I explained the matter to him in substantially the same way as I have explained it to you. He, therefore, did not make any payment as he said he would take the matter up with you before doing so.

Very truly yours,

Secretary.

October 27th, 1914.

Mr. A. H. Baldwin,
4A Duncannon Street,
Charing Cross,
London, W.C., Eng.

Dear Sir:-

I noticed a short article in a New York paper of October 24th, of which the following is a portion:-

"London, Oct. 24.- The Iron Cross was conferred to-day on hundreds of Londoners, but not by the Kaiser. The crosses in question were an imitation of the German Iron Maltese cross and sold on the Strand and other principal thoroughfares for a penny a piece, including a long piece of yellow ribbon."

If the above is correct, will you kindly, if possible, obtain a couple of these crosses, and send them to the Society.

We also want to obtain the ribbon for the following decoration:-
Oldenberg. Order of Merit and of the Ducal House of Peter Frederick Louis.
The ribbon is dark blue with red stripes on each edge.

The package to be addressed to the Society, and if you will, at the same time, send me a statement of the cost, I will forward the amount to you.

Very truly yours,

Secretary.

Dear Sir:-

The Iron Crosses and ribbon have just been received, and I am very much obliged to you. I enclose herewith Post Office Order for sh. 3-2 in payment of the enclosed bill. If you can get me three or four sets of the Iron Crosses, I would be very glad to have them, also any new varieties that might turn up.

In forwarding any packages, please address them simply to The American Numismatic Society, Broadway, at 156th Street, New York, as packages addressed that way are less liable to be held up in the Custom House, than if addressed to me at the Society. This, therefore, saves both time and trouble.

Mr. A. H. Baldwin,

Dear Sir:-

We have not received your dues for 1918 and 1919. Bills for the former have been mailed to you from time to time and one for the latter was sent to you in January. Our By-Laws require the dropping of members in arrears more than twelve months. I am loath to take your name from our membership roll without making a final effort to get in touch with you.

This Society is doing splendid work in spite of the handicap of war and everything promises us a prosperous future. We know we can serve you as never before, but we need the encouragement of your continued support.

I am enclosing a statement of your arrears trusting for a prompt settlement of your account.

Is your above address the correct one ?

Yours very truly,

Treasurer.

Dear Sir:-

Thanks for your twenty dollars cash for credit to membership. This puts you two years ahead as per statement on receipted bill enclosed. We trust that war conditions will rapidly disappear with you. We are in splendid shape here, and are always glad to render any possible service.

Yours very truly,

Treasurer.

At your convenience, will you kindly send me for examination such of the small denominational issues as you may have of the following cities:

Maroneia	Acanthus	Abdera
Thasos	Chalcidic	Mende

Or any other of the small cities of the region of the Chalcidic Peninsula, or in Macedonia just North of that.

For your information, I would explain that we have become interested in this region because of the work which one of our members is doing; and should you be able to send us any of these pieces, there is likelihood that we shall retain a considerable portion of them. Please include bronze issues as well as the silver pieces, if you have them. You might also send pieces of any of the other series in which I am interested, in case you should have received anything new since I was last in your office.

Dear Sir,

We are obliged by your letter of 22nd ult. and have to acknowledge receipt of your 'returns,' and we will let you know as soon as we receive the Draft for those you have retained. Our carbon copy is not very clear and we should be glad if you would be kind enough to let us know at what figure No.60 was invoiced.

Of the enclosed coins, No. 2 is a very interesting specimen of a double struck coin, the nose and mouth of the one striking being easily distinguishable on the chin.

We also have a large number of Tetradrachms of Thasos with usual obverse of Head of Dionysos, Rev. Hercules with club, both contemporary and Pannonian imitations. Many of the latter are very interesting as showing the complete sequence of debasement from good to extremely crude, of which we have about a hundred and should be pleased to send them to you on approval if of interest.

Yours of February 3rd and two small packages of coins at hand. Thank you very much for this second lot. I shall keep one or two of these, but not the same proportion as that of the first lot, I think.

No. 2 is, as you say, very interesting, but we have some of these late Baronian pieces, and I hardly think it would be worth your while to send the additional lot with the Pannonian imitations. Unfortunately, we have not sufficient funds to consider these at this time.

I am enclosing your envelope and ticket for No.60. The price was not filled in on the original list when you sent it to us. You will see that it is 3/6.

I am returning to you, under separate cover, the two consignments of china - Nos. 18481 and 18505. Unfortunately, I was unable to keep any of them. The Anders piece was just like one in a previous lot which I had sent; and those which you had sent had uncertainly been fairly common pieces of Varentum, Cercyra and Cerinth, as you had noted on the back of the tickets. I appreciate your having sent them, however, and trust that with another lot I shall be more fortunate in finding pieces which I want.

Gentlemen:

If you have any of the small denominational issues of Sicily, outside of Syracuse, in silver or bronze, I should be very glad to have you send them to me in approval. This, of course, would rule out all tetradrachma.

Will you also please bear in mind that we are anxious to have you send to us any of the fractional issues of the Chalcidic district of Macedonia - and especially the League issues, as well as the fractional issues of Thrace, with special emphasis on Maroneia before 350.

Very truly yours,

Gentlemen:

Do you happen to have in stock any considerable selection of the staters of Cerinth and its colonies at a figure that is not prohibitive? There are a number of our members who are interested in these coins, and if you have such a selection I believe that a large proportion of them would find a resting place in our Cabinets.

Should you send these, and have any other coins of Thracian and Macedonian issues such as the last lot sent me, I should be glad to have them forwarded at the same time.

With cordial regards,

Dear Mr. Baldwin:

Your letter of June 16th is at hand.
Thank you for calling my attention to the
error. I find that the piece, No.18 (7/8)
had mistakenly been omitted in the shipment
to you. It was exchanged by one of our
members for another piece, without credit
having been given for its return. As this
is the difference involved, it should clear
up the matter. It will be returned with the
remainder of the lot recently sent to you.

Very truly yours, .

Messrs. A.H. Baldwin & Sons
4a Duncannon Street
Charing Cross, London, W.C.

Gentlemen:

Last week I sent you in four packages, the consignment of silver coins of Thrace and Sicily recently shipped to me. On the accompanying memorandum, I am listing the pieces which have been retained. This is somewhat complicated by the fact that the two lots were both numbered from one, upward, but I trust that you will have no difficulty in distinguishing them as listed.

I hope to send by an early mail the package of bronze coins which you forwarded, B 1932, 1936 (Thrace and Sicily also). Your invoice made me think that possibly you were unwilling to sell these other than in the entire lot. If so, I regret that we cannot avail ourselves of the offer. If, however, you did not intend to signify this, we have retained eighteen (18) pieces which we should be glad to take. I am sorry that there were not more, but it just happens that we either already had specimens or did not care for the others sent.

It seemed to me simplest to send you the tickets for the pieces we retained. When you have checked these against your memorandum, will you kindly remail them to me? A remittance to cover will be sent as soon as we receive your reply.

I still have a small consignment, B 1969 and 1970. Some six or eight of these pieces we want to keep, and the remainder I will send you as soon as possible.

A supplementary memorandum of those retained is included, herewith.

Because of my absence on a two months' holiday, kindly do not send further lots of coins to me until you hear to the contrary.

Very truly yours,

Secretary

Supplementing my letter regarding the two consignments of bronze coins - one of Sicily, and the other, Thrace, before I had finished packing these the other day, one of our members came in and selected from the lot eleven (11) coins, the tickets of which accompany this letter. These total 42/-. As soon as I hear from you as to whether you are willing to sell these other than as two lots, a remittance to cover will be sent you.

Please return the tickets when you have finished the checking.

Gentlemen:

Within a few days I am going to send you a draft to cover the bronze coins which remain unpaid for.

May I ask that you send me at your convenience such of the incuse pieces of Southern Italy, especially of Metapontum, as you may have? These should include any fractional pieces, but for the incuse series only.

If there are specimens which are very considerable in value, I prefer that you send me casts rather than the coins.

Dear Mr. Baldwin:

May I ask that, at your convenience, you make a selection of Greek coins of the commoner varieties, which you can price at not more than £2. May I explain that there are a number of our members who are beginning collections and it is difficult here in New York to find specimens which are interesting and not prohibitive in price. Typical examples would be the Corinthian issues, Sicyon, and some of the smaller denominations. I think that if we might have your cooperation in this connection it might prove mutually profitable. I should prefer to have a lot sent not exceeding two score in number at first, and I will endeavor to have a return made within a reasonable time.

Very truly yours,

Dear Mr. Baldwin:

You have been so helpful on former occasions when I appealed to you for aid in matters relating to Greek coins, that I am going to ask whether you have accumulated any material or collected specimens of plated coins. One of our members is interested in the mechanical phases of the question as to how these pieces were manufactured. I know that most people have no use for the plated coins and consider them counterfeits. In fact, many houses such as yours probably have a tray into which they put these discs as *liscares*. If you have any such that are not primitive in price, I should be very glad to have you send them along in the same way that they may furnish new angles of approach to this problem.

With cordial personal regards, I remain

Feb 6th '28

Dear Mr. Roe

I am sending you 21 pcs of early plated coins and coins bearing test marks. Personally I think they were ^{(plated) pcs} officially issued, at any rate they are frequently worn as carefully cut as any in the series.

My own theory as to the manufacture of early green coins is that a bullet of metal was cast in a mould, adjusted to the weight required, re-heated and struck not. This accounts for the ridge occurring at opposite sides on the edge of early green coins. ^{the bullet being struck on its edge when it was struck.}

The portion of metal would be pushed out on each side

For the filled coins the bullet of base metal was wrapped in a sheet of

Given or sold Morocco, sealed and
then struck

I have given some little attention
to the Subject and Supplied some
examples to the late Bernard Ross when
he was compiling his article for
the Q. B. N. L. p. 4.

Our Early British gold with plain
convex reverse shows one half of the
bullet flattened out very well, and
the early Irish ring money shows
on the inner side of the ring, the
ring where the sheet of metal meets
over the copper rod.

Our number ought to be able
to make a very interesting paper
on the Subject; it is welcome to any
information contained herein
and any further help I can
give him. I am, Sir,

J. N. Alderton

P.S. You can find a number of coins
with portrait convex centre, showing a strip
of bare coin, showing the rust where a portion
of the over the rust had broken away, the
sheet had spread out exposing the copper.

16th February, 1928

A. H. Baldwin, Esq.,
London, England

Dear Mr. Baldwin:

Thank you very much indeed for your very informative letter which reached me this morning, together with the plated and countermarked coins which you were so good as to send. I shall take pleasure in forwarding your letter to Dr. W. P. Robinson, of Newport, who is making a study of these plated pieces, and I feel sure he will want to keep a considerable number of the specimens. I am sure, also, that he will value highly the remarks you make and the explanation you give of your idea as to the way in which they were made.

Dr. Robinson is a very modest man, and it has taken the utmost effort on our part to make him realize that the material which he has been gathering would have a cumulative value of a high order and that this would be enhanced by his observations as he went along. I hope that we shall one day see the fruit of his studies in print.

Dear Sir,

We have received from the Central Union Trust Co. of New York a draft value £20-15-0, and your returns have arrived.

On checking your returns and the items paid for we find the following differences:—

Our Invoice Nos. 2423 & 2325.

If you feel that the returns from the last consignment were satisfactory, I should be glad to have you, at your convenience, make up another of Greek coins of the next grade in value, not more than £4 per coin. As you probably know, there is much more likelihood of one's retaining a piece if it can be examined. Of course, we shall be glad to have you include anything received recently of a lower value as well. In addition, if you have any gold, silver, or fine-conditioned bronze pieces of Lysimachus, please include them. Another of our students is interested in the coinage of Caesarea in Cappadocia. Dear Mr. Baldwin:

In thinking over some of my conversations with you, I remember that you have an uncanny way of producing a collection of a certain series when you are reminded by some one who is interested. I am writing to ask if such is the case with Argentine leaf beetles or bullfinches? Owing to the fact that they are often infected with the leaf disease, many collectors will have nothing to do with them. If you have any considerable number of them I should be glad to have word from you about them, as I think it might be possible for us to develop an interest in them on the part of some of our members.

Your memorandum of the lost consignment of coins sent to me, has been received. A number of these coins have already been taken, but because the visits of our members are infrequent during the summer time, I should like your permission to keep the consignment a little longer in the hope that some of the number may find purchasers. If this is not satisfactory to you, please do not hesitate to say so and on receipt of your reply I will see that the pieces remaining unsold are sent to you immediately. It is possible that in the interval I shall have been able to have the coins examined by those whom I desire to have see them.

Dear Sir,

With reference to your advertisement in the present issue
of "The Numismatist" we should be obliged if you would send us
a copy of - Coinage of the West Indies and the Sea Marque - by
Howland Wood. Kindly allow us the usual trade discount.

Yours faithfully,

Dear Sirs:

Will you be so good as to send us any South American decorations which you may have received since Mr. Gillingham was last in your establishment, together with a list of any others that you may have in stock. You are probably aware that Mr. Gillingham is working on decorations of South American at the present time and there is also a chance that you may have secured something of which the "authorities" have no record. Should such prove the case and should your prices be within our reach, it is possible that some of the decorations might stay here.

With appreciation of your co-operation in the past, and with cordial wishes for the New Year, I am,

Very cordially yours,

Secretary.

Dear Sirs:

Your letter of January 20th telling me of the collection of bronze coins of Greece which you have acquired, is at hand. If they are not too large in number, we should be very glad to have you send the coins of Macedonia and Thrace. Will you also be so kind as to tell me how many coins are comprised in the following sections?

- (a) Southern Italy
- (b) Sicily
- (c) Peloponnesus

Thanking you for suggesting the sending of this material,

I am,

Very sincerely yours,

Secretary

Dear Sirs:

Your letter of January 20th is at hand. Thank you for sending me a copy of the Nordheim sale catalogue. Like a great many others, I am not in a position to send any bids at the present time, but I do wish to express my appreciation of your courtesy in sending me the catalogue.

If you have any recent acquisitions of Metopontum coins of the stater of Corinth or its colonies, I shall be glad to have a word concerning them.

Very truly yours,

Secretary.

Gentlemen:

Herewith I am returning your last consignment of coins. I regret that I have been unable to find purchasers for more than those indicated but conditions are such here that only the most necessary expenditures are being considered by most collectors. Trusting to be more fortunate on another occasion, I am

Gentlemen:

Herewith I am sending you the coins of your recent consignment. We have retained four of them. I had hoped that it might be more but one of the members to whom I expected to show them has been abroad and we do not feel warranted in holding them longer pending his return. I note you have silver coins of Corinth of smaller denominations. If these are not too considerable in number, we should be very glad to have you send them to us, if you feel that the slight return on this consignment warrants your doing so. A check to cover the pieces retained will be sent you through our bank within a few days. Thanking you for your previous courtesies,

Very truly yours,

Gentlemen:

Herewith I am returning the consignment of the smaller denominations of Corinth and its colonies which you so kindly sent me recently. You will see that a fair proportion of these have been retained. Should you in the future obtain additional material of this nature I should be glad to have you inform me of that circumstance.

If you have any staters of Caulonia or Poseidonia in double relief, not incuse, I should be very glad to have you send them to me on consignment, although I should prefer to have casts of pieces valued at more than £ 5. rather than the coins. With appreciation of your previous courtesies, I beg to subscribe myself,

Very truly yours,

Gentlemen:

Herewith I am returning five of the
eight coins which you recently sent us on con-
signment. A remittance to cover the three re-
tained will be sent you through our bank by
the end of this week.

Very sincerely yours,
